

Petition for Day Service Phone Line Support

We, the undersigned, wish to petition NHS Derby City to re-provide a phone-in support service as part of Rethink day services. We believe it is vital to be able to speak with a worker for support if in distress. This was previously provided by both Derbyshire Mind and SIRRT and was greatly valued by the service users who depended on it.

It is important to recognize that many people have times when mental and emotional distress prevents them from getting to the day service building itself. At such times it is crucial to have access to a phone in support service which can successfully lessen their distress and prevent the need for further services.
